

Positive Thinking!

Living on earth is expensive, but it does include a free trip round the sun every year.

Birthdays are good for you - the more you have, the longer you live.

Happiness comes through doors you didn't even know you had left open.

If shops are lowering prices every day, how come nothing is free yet?

Don't cry because it's over - smile because it happened.

We could learn a lot from crayons; some are sharp, some are pretty, some are dull, some have weird names, and all are different colours ... but they all exist nicely in the same box.

You may be only one person in the world, but you may be all the world to one person.
